

## Jump start your latest innovation in medical informatics by applying to participate in the 2019 AMIA Pitch IT competition!

We are seeking entrepreneurs that have new applications of medical or biomedical informatics at the point of care to improve workflow, decision support, precision medicine, and analytics. You will have the chance of a lifetime to present your unique opportunity to a panel of highly successful investors and entrepreneurs, along with an audience of industry leaders during the AMIA 2019 Symposium in Washington DC. **Successful pitches will receive a minimum of \$5,000 up to \$25,000** to fund development.

### How Does It Work?

Five applicants will be selected as finalists and invited to attend the AMIA 2019 Annual Symposium and give a five-minute pitch of their innovation to a panel of judges. After the pitch, there will be a nine-minute question and answer period from the panel and audience.

### Key Dates

- **August 1**, 2019 application phase opens, and crowd validation begins
- **September 22**, 2019 application phase closes
- **November 17**, 2019 Pitch IT Competition at AMIA Symposium in Washington DC

### How to Apply

Apply at [challenge.ai2.world](https://challenge.ai2.world)

### Prizes

Up to three innovators will be awarded \$5,000 up to \$25,000.
